

Inventing The Telephone

by Erinn Banting

The First Telephone Call March 10, 1876. What were the first words ever spoken on the telephone? They were spoken by Alexander Graham Bell, inventor of the Telephone. For more than a century, Alexander Graham Bell has been credited with inventing one of the worlds most ingenious and profitable inventions. But astonishingly, in 1978, a group of scientists decided to try to decide who really invented the telephone. Who is credited as inventing the telephone? Was it Alexander Graham Bell? Alexander Graham Bell is most well known for inventing the telephone. He came to the U.S as a teacher of the deaf, and conceived the idea of electronic communication while attempting to invent a machine that would transmit sound by electricity. Bell was granted the first official patent for his telephone in March 1876. Who Invented The Worlds First Telephone? Old Phone Alexander Graham Bell was NOT the inventor of the telephone. He was a thief.
